<h2>Choice Voting | Giving you the best election experience</h2>

</section we should have a kind of short video or animation that display our voting process>

</short note about us> *“Electronic voting is often seen as a tool for making the electoral Process more efficient and for increasing trust in its management.*

Properly implemented, e-voting solutions can increase the security

Of the ballot, speed up the processing of results and make

Voting easier. However, the challenges are considerable. If not

Carefully planned and designed, e-voting can undermine the

Confidence in the whole electoral process. This policy proposal

Outlines the services, models and working principles of

CHOICE VOTING SYSTEM and how it can benefit your

Society, organization or government.”

Then links for our social media sites(I just created them)
